## Update to Inspection Fee Schedule

Dear Community Members,

I hope this letter finds you well and safe. The Iona McGregor Fire District's primary goal is to ensure the safety and well-being of our community. Part of achieving this goal involves maintaining and improving our fire inspection services. In our ongoing efforts to enhance and streamline our services, we have updated the fire inspection fee schedule. The fee schedule has not been updated since 2012. This adjustment was necessary to meet the growing demands of our community while continuing to provide the highest level of fire safety. The revised fee schedule will help support the necessary resources, training, and equipment required to operate the Prevention Bureau.

The implementation of the new fee schedule will begin March 1, 2024. As part of the revision of the fee schedule, we have added a nominal fee for the inspections of existing occupancies. We understand the significance of these inspections in safeguarding your homes and businesses, and we are committed to maintaining the utmost transparency regarding any associated fees.

The updated fee schedule is attached and available on our website [www.ionafiredistrict.com](http://www.ionafiredistrict.com). We encourage you to review it at your earliest convenience. If you have any questions or concerns regarding the fee adjustments or the inspection process, please feel free to contact our office at 239-425-9336 or via email at [FirePrevention@ionafire.com](mailto:FirePrevention@ionafire.com).

We thank you for your understanding and continued support. Your commitment to fire safety is crucial in creating a resilient and secure community. Your Fire District will continue working diligently to protect lives and property through exemplary emergency response, community risk reduction, and public outreach.

Sincerely,  
  
Seth Comer  
Fire Chief
